Acquisition Partners Announces Completed Transaction for Fire Protection Services Company

Dec. 2019 – Acquisition Partners (AP), an affiliate of The Independence Group, has assisted in the completion of the sale of Chief Fire Protection. The buyer is Trinity Private Equity Group, a Dallas, TX based private equity investment firm.

Chief Fire Prevention is well established in the New York City area, providing hood, exhaust and grease trap cleaning for restaurants, factories and other commercial facilities. It also provides design and installation of ductwork, range hoods and fire suppression systems.

"The Company is poised for growth with the implementation of a sales division, among other growth strategies," said Larry Willis, President of AP. "Trinity will bring financial resources and marketing strength to Chief Fire to expand its current footprint and take it to the next level."

AP's effort began with a concentrated buy side search in the fire protection space, followed by taking the sufficient amount of time to establish a rapport with the owner of Chief Fire. Upon a professional introduction to Trinity, the private equity firm secured the deal and steered it to completion. The AP team provided assistance throughout the process.

Acquisition Partners offers enhanced acquisition search assistance and consistent deal flow to select private equity firms, search funds and family offices. AP is an experienced team of buy-side specialists, financial analysts and marketing professionals -- a trusted partner in your acquisition search. For more information visit www.acq.partners.
