Acquisition Partners Announces Completed Transaction for Managed IT Company

Fall 2020 – Acquisition Partners (AP), an affiliate of The Independence Group, has assisted in the completion of the sale of an IT Managed Services company. The buyer is a private equity-backed holding company based in Northern California.

The seller is a rapidly growing company in Georgia that has been providing IT solutions to commercial and home users for more than a decade.

The buyer is focused on acquiring B2B services companies in the U.S. with the intention of holding the businesses permanently. The firm is committed to retaining employees and empowering management teams with a proven playbook for growth.

AP partnered with the private equity firm to conduct a concentrated buy side search in the Managed IT space, working closely with its Head of M&A. Upon a professional introduction between the seller and the buyer, the buyer administered the deal process with the AP team providing assistance along the way.

Acquisition Partners offers enhanced acquisition search assistance and consistent deal flow to select private equity firms, search funds and family offices. AP is an experienced team of buy-side specialists, financial analysts and marketing professionals -- a trusted partner in your acquisition search. For more information visit www.acq.partners.
